Garry Willis column attacking me for the 1/22/65 transcript HW 6/25/75

Willis did phone Lonnie prior to writing the column. Only Lonnie says he did not tell him what Willis says. Lonnie says he was explicit that the whole thing was not made up and that only eh 179 number was. Lonnie had not seen the column.

Says he'll read anc call Wills.

Surprised at no mention Ainsworth's name and attributing the whole thing to Bill Alexander's dislike of the FBI.

This means that Willis lied deliberately.

Cui bono?
